

**Business Leaders Support Pat Herrity**

Today I released the initial list of Business Leaders for Herrity. The list includes business leaders from a broad spectrum of the industries that are critical to the economic success and job growth in Northern Virginia.

I have had a successful 25 year career as a businessman; I understand the challenges small business owners have meeting payroll each week as well as the significant burdens both over-regulation and taxes place on them.

I have been recognized by the Northern Virginia Technology Council (President's Award and CFO of the Year Community Service Award) and the Fairfax County Chamber of Commerce (Chairman's Award) for my leadership in the business community and for making our community a better place.

I understand the needs of our chief job creators - small businesses.

Gerry Connolly ran for Congress as a pro-business moderate, but his record and his statements indicate that he is just the opposite. He -

- Supports Card Check as the price of admission to the Democratic Party, which threatens Virginia's right to work laws
- Voted for Cap and Trade, a new energy tax that will only slow the economic recovery
- Supports raising taxes on those who makes \$250,000 - which will impact thousands of Northern Virginia businesses.
- Voted for regulations that hinder job growth in Northern Virginia

My record is clear, since joining the Board of Supervisors I have set a proactive, pro-business agenda that promotes job creation and reduces the tax burden and regulation on our local businesses and homeowners. I will take this same common sense agenda to Congress.

Please see the full list of business endorsements on my website or look below.
